

# KARAOKE

**What Is Karaoke:** Karaoke is a form of interactive entertainment for guests to sing along with recorded music using a microphone and public address system. Lyrics are displayed on a video screen, along with a changing color, to guide the singer.

**What Kind Of Music:** Typically well known music including Jazz, Rock, Rap, Hip Hop, Motown and Country. We have a 4000 track library that grows after every show!

**Who Can Sing:** Anyone who can hold the microphone and read the lyrics!

**Basic Information:** Extreme Tunz does not provide singers. But we can do group starter songs to get the party going or perhaps the occasional fill song. With that in mind we do not have set lists and do not intend on singing all night long. There are two very simple reasons why we do not sing. Alienation of good and bad singers; If we are good singers, we restrict new singers from giving it a try or relaxing and having fun. If we are poor singers, others won't join because they think they are above the quality level. The down time at an event will be filled with original top 40 music. Extreme Tunz will provide light equipment, sound equipment, a 4500 track library of Jazz, Rock, Rap, Hip Hop, Motown and Country music. We typically interact with funny hats, heckling the audience, introducing singers, making announcements, encouraging new singers and hosting the show.

Please contact Extreme Tunz for any questions not answered here.

# KARAOKE

## Rules!

1. Applause! This is an audience requirement. The more applause the more fun and entertaining this event will be.
2. I want to do another one! Great, write up a slip and drop it in the drop box. You sing one time when you are on stage, not song after song!
3. Do you have this particular song? Don't ask, the book is located somewhere in the room!
4. Hey move me up, I wanna be next! Sorry, singers are taken in the order slips are received. If you really want to go next, perhaps make the "tip jar" jingle a little more.
5. Can you put me next? I need to go! You never should've told me that. I move you up and I lose my crowd! Does not do me any favors.
6. Can you change the key the song is in? Nope - Karaoke tracks are created for one reason. FUN - we are not in Nashville trying to cut an album. Make the track work or stay off my stage!
7. Is this thing on? Check the switch, speak up and hold the microphone just below your bottom lip.
8. Why don't you have (MY TYPE) of music? Because it's just not that popular and we purchase music based on "DEMAND"! We might have the song next time, but not this time.
9. Hey this isn't the version I'm used to! You have 3 options... Wing it, Get Audience Participation, or Get **OFF** My Stage!
10. Participation & Interaction! Karaoke tracks are created for one reason: FUN. We are not in Nashville trying to cut an album. Make the track work or stay off my stage!
